Re: 2008 Biennial Transmission Assessment - Docket No. E-00000D-07-0376

Dear Sir/Madam:

SRP would first like to commend Staff and its consultant, K.R. Saline and Associates, on their efforts in the development of the Fifth Biennial Transmission Assessment 2008-2017 Report ("Report"). SRP appreciates the opportunity to participate in the workshops and to comment on the report throughout the process. The Biennial Transmission Assessment process plays an important role in the state's overall planning process.

SRP offers only one final comment to the Final Draft Report dated October 15, 2008 which SRP considers to be a "technical and conforming language" modification. Specifically on page 16 of the Final Draft Report, Table 7 "Significant EHV Project Changes Since Fourth BTA", SRP suggests that the Pinal West-Abel/Browning Project be removed from the table as this is not a new project. This project, formerly known as the Pinal West-Southeast Valley/Browning Project, was described in the Fourth BTA on page 146. Since then, the substation name has changed from Southeast Valley to Abel. However, there have been no significant changes to this project since the Fourth BTA was issued. Therefore, SRP believes it is appropriate to remove the Pinal West-Abel/Browning Project from Table 7.

Please feel free to contact me at (602) 236-5028 if you have any questions.

Sincerely,

Jana Brandt
